Chapter 1: Introduction

1.1 Product Introduction

This USB 2.0 to Fast Ethernet Adapter add a single RJ-45 Ethernet networking port to a USB enabled computer system with link speeds 10/100 Mbps. Backwards compatible with USB 1.x computer system, this compact and portable adapter is ideal as a desktop replacement network adapter or laptop accessory.

1.2 Features

- Compliant with the Standard Specification of USB 1.1 and 2.0
- Compliant with IEEE 802.3 (10Base-T) and 802.3u (100Base-TX)
- Support Full Duplex Operation in 10/100 Mbps Modes
- Support USB Full and High Speed modes with bus power capacity
- Upstream port: USB type A
- Downstream port: RJ45
- LEDs indicate the status of Power status and Ethernet connection

1.3 System Requirements

- Windows® XP/Vista/7 /8/8.1/10(32/64 bit)
- Mac OS X 10.6 or later
- Available USB port

1.4 Package Contents

- 1 x USB 2.0 to Fast Ethernet Adapter
- 1 x User Manual
- 1 x Driver CD

Note: Contents may vary depending on country/market.

Chapter 2: Getting Started

2.1 Hardware Installation

1. Plug the USB 2.0 to Fast Ethernet Adapter directly into an available USB port on your computer.

2. Connect one end of your network cable into the RJ45 port of

USB 2.0 to Fast Ethernet Adapter.

3. Connect the other end of the network cable into an available Ethernet port on your router, switch, or any other networking device.

2.2 Driver Installation

The following section shows you how to install the USB 2.0 to Fast Ethernet Adapter driver on different operating systems.

Important! Do not connect the USB 2.0 to Fast Ethernet to your PC before the install.

2.2.1 Installation for Windows XP/Vista/7

Insert the provided CD into your disk drive. The CD-ROM will start automatically. The following screen will show up and please click **"Install Driver"**

*Note: Actual image may vary

Note: If the install program doesn't run automatically, please locate and double-click on the **Autorun.exe** file in the CD to launch the install program.

1. Please click **"USB 100M"** to start the installation.

*Note: Actual image may vary

2. Follow the instructions on screen to install the driver.

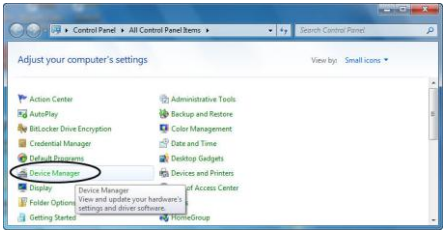

2.2.2 Installation for Mac OS X 10.5/10.6

1. Insert the provided CD into your CD-ROM drive.
2. Double-click the "Ethernet Adapter" disc icon, double-click "Drivers" folder
3. Double-click "USB 100M" folder, and then double click the "For Mac OS X 10.5/10.6.pkg" file to launch the installer.
4. Follow the instructions on screen to install the driver. After driver installation is complete, you must restart your computer.

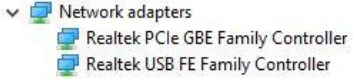

2.3 Hardware Verify

2.3.1 Verifying for Windows XP/Vista/7

1. Click on the **"Device Manager"** tab in the Windows Control Panel.
   Start > Control Panel > Device Manager
